

Legacy Patron Circle – Week 5

Talking Points

Digital vs. Physical Legacy

Key Talking Points for You as a Realtor

Physical portraits are the only asset that cannot be deleted, altered, or averaged by algorithms. They are true investment-grade legacy art pieces.

Clients who value long-term family status respond strongly to the idea of a portrait that becomes a 200-year family landmark.

Use the “digital vs. physical” contrast to shift conversations from price to enduring value.

This framing helps you close larger commissions and position yourself as the expert who thinks beyond the immediate.

You gain political capital by showing clients you understand what will matter to future generations.

Powerful Quote You Can Share “The one asset that does not depend on electricity, servers, or software updates.”
